

A06B-6087-H155

Industrial automation components

Manufacturer	Fanuc
Catalog number	a06b-6087-h155
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	22.23 kgs
Product Type	ALPHA Power Supply Module (PSM-55)
Input Voltage	200–230 VAC
Output Power	55–65 kW
Weight	25 kg
Manufacturer	Fanuc

Description

The Fanuc A06B-6087-H155 is an ALPHA Power Supply Module (PSM-55) engineered to provide robust and continuous power to FANUC CNC servo systems. Designed for a 200–230 VAC three-phase input, it delivers a high-capacity output of 55–65 kW with stable DC voltage, ensuring reliable energy support for servo drives and spindle modules in industrial automation applications. This power supply module is essential for maintaining optimal performance and minimizing downtime in automated systems.
