

## A06B-6091-H118

Industrial automation components

<b>Manufacturer</b>	Fanuc
<b>Catalog number</b>	a06b-6091-h118
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Input Voltage</b>	400/460VAC V
<b>Output Power</b>	18kW
<b>Product Type</b>	Alpha Power Supply Module
<b>Model Number</b>	PSM-18HV
<b>Manufacturer</b>	Fanuc

### Description

The Fanuc A06B-6091-H118 is a high-performance Alpha Power Supply Module (PSM-18HV) designed for industrial automation applications. Manufactured by Fanuc, a leader in automation technology, this module ensures reliable power delivery for CNC systems and other machinery. It operates with an input voltage of 400/460VAC and provides a rated output of 18kW, making it suitable for demanding industrial environments. The module is part of the A06B-6091 series, known for its exceptional performance and durability. Its robust construction and advanced features ensure continuous and stable power delivery, enhancing the overall efficiency and productivity of industrial operations. Whether you're replacing a faulty unit or upgrading your existing system, the A06B-6091-H118 offers a dependable solution for your power supply needs.
