

A06B-6110-H006

Industrial automation components

Manufacturer	Fanuc
Catalog number	a06b-6110-h006
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	3.91 kgs
Voltage	240 V
Current	26 A
Frequency	50 - 60 Hz
Product Type	Converter
Signal Level	240 V

Description

The Fanuc A06B-6110-H006 is an Alpha I Power Supply Module, model PSM-5.5i, designed for industrial automation applications. Manufactured by Fanuc, a global leader in automation technology, this module provides a reliable power source for CNC machine tools and other automation systems. It operates with an input voltage of 200-240 V AC, drawing 26 A at 200 V, and delivers an output voltage of 283-325 V DC with a power rating of 6.8 kW. The module is built to withstand industrial environments, ensuring consistent performance and longevity. Its compact design facilitates easy integration into existing systems, making it a valuable component for enhancing automation capabilities.
