

## A06B-6150-H060

Industrial automation components

<b>Manufacturer</b>	Fanuc
<b>Catalog number</b>	a06b-6150-h060
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Manufacturer</b>	Fanuc
<b>Part Number</b>	A06B-6150-H060
<b>Product Type</b>	Power Supply Module
<b>Product Series</b>	ALPHA i
<b>Model Number</b>	AiPS-60HV

### Description

The Fanuc A06B-6150-H060 is a high-performance power supply module from Fanuc's ALPHA i series, specifically designed for industrial automation applications. This module, identified by the model number AiPS-60HV, serves as a critical component in CNC systems, providing reliable power conversion and distribution. It is engineered to support the demanding requirements of modern industrial machinery, ensuring consistent performance and operational efficiency. The A06B-6150-H060 is recognized for its durability and precision, making it a preferred choice for professionals seeking dependable power supply solutions in automation systems.
