Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	PANEL i Display Unit
Product Series	A08B-0090
Display Type	LCD or TFT
Interface	Human-Machine Interface (HMI)
Integration	Seamless with Fanuc Controllers

Description

The Fanuc A08B-0090-B002 is a PANEL i display unit integral to Fanuc's A08B series, designed to serve as an intuitive human-machine interface (HMI) for Fanuc CNC systems. This unit features a high-resolution LCD or TFT display, providing clear and responsive visual feedback essential for machine operation.

Integrated soft keys and Manual Data Input (MDI) units allow precise control and real-time interaction with CNC machinery. Engineered for reliability and durability in industrial environments, the A08B-0090-B002 ensures seamless integration with Fanuc controllers, enhancing productivity, monitoring, and user experience in machining applications.

Its compact design and robust construction make it suitable for diverse industrial settings, offering operators a user-friendly interface for efficient machine control.
