

A16B-1211-0850-01

Industrial automation components

Manufacturer	Fanuc
Catalog number	a16b-1211-0850-01
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	1.52 kgs
Product Type	Power Supply Unit
Weight	3.35 lbs
Dimensions	6 mm x 16 mm x 31 mm
Operating Temperature	0 to 40 degrees Celsius °C
Storage Temperature	0 to 50 degrees Celsius °C
Operating Humidity	Up to 80% (non-condensing) %
Storage Humidity	Up to 80% (non-condensing) %
Maximum Operating Altitude	1000m above sea level m
Maximum Storage Altitude	1000m above sea level m

Description

The Fanuc A16B-1211-0850-01 is a specialized power supply unit designed for Fanuc CNC controllers, including the 0-M, 0-T, and 150T series. This unit ensures stable electrical power delivery to core control electronics, maintaining reliable system operation in machining and automation environments. Manufactured by Fanuc, a leader in industrial automation, the A16B-1211-0850-01 is built to industrial standards, supporting continuous performance in demanding applications. Key features include its compatibility with various Fanuc CNC controllers, robust construction for industrial use, and thorough testing to ensure excellent performance and stable product quality. This power supply unit is essential for maintaining the efficiency and reliability of Fanuc-controlled machinery.
