

A16B-1212-0901

Industrial automation components

Manufacturer	Fanuc
Catalog number	a16b-1212-0901
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.79 kgs
Signal Level	200 V
Voltage	200 V
Weight	0.79 kg
Input Voltage	200-240 V
Output Voltage	24 V
Output Current	10 A
Product Type	Power Supply Unit

Description

The Fanuc A16B-1212-0901 is a power supply unit designed for compatibility with several FANUC systems, including the 16MB and 18TC models. It delivers a robust output of 24V DC at a maximum current of 10 Amps while operating within an input voltage range of 200-240V AC. This unit is suitable for various automation applications, ensuring reliable power delivery to FANUC CNC systems and robotic controllers. Its compact design allows for easy integration into existing setups, making it a valuable component for maintaining optimal performance in industrial automation environments.
