

A16B-1310-0010

Industrial automation components

Manufacturer	Fanuc
Catalog number	a16b-1310-0010
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	1.53 kgs
Voltage	250 V
Current	2 A
Signal Type	250
Signal Level	250 V
Relay Specifications	250 VAC

Description

The Fanuc A16B-1310-0010 is a power supply unit designed for industrial I/O rack applications, particularly within Fanuc Series 16 CNC systems. Operating within an input voltage range of 200 to 220 VAC, it delivers a consistent output current of 5 A, ensuring reliable power distribution for connected devices. The unit measures 10.24 inches in length, 6.69 inches in width, and 2.76 inches in depth, with a weight of approximately 1.53 kg, facilitating straightforward installation in control cabinets or mounting locations. It is engineered to function efficiently at elevations up to 2000 meters (6562 feet), making it suitable for various industrial environments. This power supply unit is essential for maintaining stable and effective power management in industrial applications, supporting the seamless operation of connected machinery and systems.
