

A16B-3200-0780

Industrial automation components

Manufacturer	Fanuc
Catalog number	a16b-3200-0780
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.46 kgs
Manufacturer	Fanuc
Relay Specifications	2 A
Current	2 A
Weight	2 kg
Product Type	Main PCB
Compatibility	Fanuc R-30iB series robots
Country of Origin	Japan
Part Number	A16B-3200-0780
Category	Podzespoły automatyki przemysłowej

Description

The Fanuc A16B-3200-0780 is a high-quality printed circuit board (PCB) designed for use in Fanuc's R-30iB series industrial robots. Manufactured in Japan, this PCB serves as the main control unit, ensuring precise and reliable operation of robotic systems. It is compatible with various Fanuc robot models, providing seamless integration and enhanced performance. The A16B-3200-0780 is known for its durability and efficiency, making it a preferred choice for industrial automation applications. Its compact design allows for easy installation and maintenance, contributing to reduced downtime and increased productivity. This PCB is an essential component for maintaining optimal functionality in Fanuc robotic systems, supporting complex tasks and operations with high precision.
