

A20B-8100-0470

Industrial automation components

Manufacturer	Fanuc
Catalog number	a20b-8100-0470
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.14 kgs
Product Type	PROFIBUS-DP Master PCB B
Product Series	A20B-8100
Interface Type	PROFIBUS-DP
Manufacturer	Fanuc
Part Number	A20B-8100-0470
Category	Podzespoły automatyki przemysłowej

Description

The Fanuc A20B-8100-0470 is a PROFIBUS-DP Master PCB B, integral to Fanuc's A20B-8100 series of control PCBs. Designed for seamless integration in industrial automation systems, this module facilitates efficient data transfer and communication within PROFIBUS-DP networks. Its robust construction ensures reliable performance in demanding environments, making it a critical component for maintaining optimal operation of Fanuc-controlled machinery. This PCB is suitable for applications requiring high-speed data exchange and precise control, such as CNC machines and robotic systems. For detailed specifications and compatibility information, refer to the manufacturer's datasheet or consult with authorized Fanuc distributors.
