Manufacturer	Fanuc
Catalog number	a860-2162-v012
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Fanuc
Part Number	A860-2162-V012
Product Series	A860-2162
Product Type	Sensor Head
Application Area	Industrial Automation

Description

The Fanuc A860-2162-V012 is a high-quality sensor head designed for precise position sensing and feedback in industrial automation applications. Manufactured by Fanuc, a leading provider of automation solutions, this sensor head is part of the A860-2162 series, known for its exceptional durability and performance.

The A860-2162-V012 sensor head is engineered to deliver accurate and reliable feedback, ensuring optimal operation of CNC machine tools and other automated systems. Its advanced design and construction make it suitable for a wide range of industrial applications, including precision machining, robotics, and automated assembly lines.

This sensor head is compatible with various Fanuc servo systems, providing seamless integration and enhanced system performance. Please note that availability may vary, and it's advisable to contact authorized distributors for the most current information.
