Manufacturer	Fanuc
Catalog number	a860-2164-v203
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Fanuc
Part Number	A860-2164-V203
Product Type	Detection Circuit
Series	A860 Series
Application Area	CNC Machinery

Description

The Fanuc A860-2164-V203 is a detection circuit designed for integration within Fanuc's A860 Series, primarily utilized in CNC machinery for precise signal feedback and position detection. This component ensures reliable performance in demanding automation environments, contributing to the overall efficiency and accuracy of industrial automation systems.

Its compact and durable construction allows for seamless integration into various Fanuc CNC systems, making it a versatile solution for enhancing machine performance. The A860-2164-V203 detection circuit is engineered to meet high industry standards, ensuring durability and consistent operation in industrial settings.
