

A97L-0218-0281#70F-45

Industrial automation components

Manufacturer	Fanuc
Catalog number	a97l-0218-028170f-45
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	22.68 kgs kg
Weight	22.68 kg
Product Type	RV Reducer
Application Area	Robotic Systems
Product Series	A97L-0218
Manufacturer	Fanuc

Description

The Fanuc A97L-0218-0281#70F-45 is a high-precision RV reducer designed for the J4 axis of Fanuc robotic systems. Engineered to enhance the performance and accuracy of robotic movements, this component is integral to the smooth operation of Fanuc robots. Its robust construction ensures durability and reliability, making it suitable for various industrial applications where precision is paramount. The RV reducer plays a crucial role in reducing backlash and improving the responsiveness of the robotic arm, thereby optimizing overall system efficiency. This part is compatible with specific Fanuc robot models and is essential for maintaining optimal performance in automated processes.
