

A97L-0218-0383#450N-290

Industrial automation components

Manufacturer	Fanuc
Catalog number	a97l-0218-0383450n-290
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	45.36 kgs kg
Product Type	RV Reducer
Product Family	RV Series
Application Area	Industrial Automation
Compatibility	R-30iB Model
Model	R-30iB
Series	RV
Manufacturer	Fanuc

Description

The Fanuc A97L-0218-0383#450N-290 is a high-precision RV reducer designed for the R-30iB model, specifically engineered for 2-axis applications. This component is integral to Fanuc's RV series, known for its exceptional performance and reliability in industrial automation settings. The reducer's robust construction ensures optimal torque transmission and minimal backlash, making it ideal for tasks requiring high precision and efficiency. Its compatibility with the R-30iB model underscores its suitability for advanced robotic applications, where precision and durability are paramount. This component is essential for enhancing the operational capabilities of Fanuc robotic systems, contributing to improved productivity and operational excellence.
