

HE693ADC415

Industrial automation components

Manufacturer	Fanuc
Catalog number	he693adc415
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage	500 V
Channel Configuration	4
Signal Level	500 V
Product Type	Module
Signal Type	500
Relay Specifications	500 VAC

Description

The HE693ADC415 module is an advanced industrial device that operates at a voltage of 500V. It features a configuration of four channels, allowing for efficient signal management. Both the signal type and signal level are also 500, ensuring high precision and reliability in industrial applications. The relay specification at 500 further emphasizes its performance.
