

IC660BRD020

Industrial automation components

Manufacturer	Fanuc
Catalog number	ic660brd020
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Module
Signal Type	48
Signal Level	48 V
Voltage	48 V

Description

The IC660BRD020 module from FANUC is an advanced industrial component designed for use in automation systems. It operates at a voltage of 48V, making it suitable for applications requiring stable power supply. The signal type and signal level also stand at 48, ensuring high precision and reliability in data transmission.
