

IC693ALG391

Industrial automation components

Manufacturer	Fanuc
Catalog number	ic693alg391
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage	24 V
Channel Configuration	2
Industrial Safety	plc
Product Type	Module
Signal Type	24
Signal Level	24 V
Safety Level	plc

Description

The IC693ALG391 module is an advanced component designed for use in industrial automation systems. It features a voltage of 24V and a two-channel configuration, enabling efficient signal processing. The product ensures a high level of industrial safety, meeting PLC standards. Both the signal type and signal level are also 24, making it an ideal solution for complex applications.
