

IC693CPU352

Industrial automation components

Manufacturer	Fanuc
Catalog number	ic693cpu352
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Module
Temperature	240

Description

The IC693CPU352 is a CPU module that operates at temperatures up to 240 degrees. It is an efficient solution for control systems, offering advanced computational and process management capabilities.
