

IC693MDL732

Industrial automation components

Manufacturer	Fanuc
Catalog number	ic693mdl732
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage	24 V
Current	0.5 A
Product Type	Module
Industrial Safety	plc
Safety Level	plc
Signal Type	24
Signal Level	24 V

Description

The IC693MDL732 module is an advanced component designed for use in industrial automation systems. It operates at a voltage of 24V and a current of 0.5A, making it an ideal solution for applications requiring reliability. This module handles signals at a level of 24, ensuring high signal quality and safety at the PLC level.
