

IC694MDL260

Industrial automation components

Manufacturer	Fanuc
Catalog number	ic694mdl260
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Module
Firmware Version	v3.5
Signal Type	120
Relay Specifications	120 VAC
Voltage	120 V
Signal Level	120 V

Description

The IC694MDL260 module is an advanced solution designed for automation systems. It operates at a voltage of 120V, providing signals at a level of 120. The software version v3.5 ensures optimal performance, while the relay specification adapts to application requirements. This module is ideal for applications requiring reliable and precise signals.
