

IC695ALG508

Industrial automation components

Manufacturer	Fanuc
Catalog number	ic695alg508
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Module
Interface Type	can

Description

The IC695ALG508 module is an advanced industrial solution that utilizes a CAN interface. It provides reliable connectivity in automation systems, enabling efficient data management. Its design is tailored for demanding industrial conditions, making it an ideal choice for applications requiring high performance.
