

IC695CMM002

Industrial automation components

Manufacturer	Fanuc
Catalog number	ic695cmm002
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Module
Interface Type	modbus

Description

The IC695CMM002 is a FANUC module that supports the Modbus interface. This product is a key component in automation systems, enabling communication and integration with other devices.
