

IC695NIU001

Industrial automation components

| | |
|-----------------------|----------------------------------|
| Manufacturer | Fanuc |
| Catalog number | ic695niu001 |
| Category | Industrial automation components |
| Product type | Industrial automation components |
| Status | Active product |

Technical specification

| | |
|--------------------------|----------|
| Product Type | Module |
| Safety Level | plc |
| Temperature | 20 |
| Interface Type | ethernet |
| Industrial Safety | plc |

Description

The IC695NIU001 module is an industrial product operating at a temperature of 20°C. It features an ethernet interface, allowing for easy communication in networks. Its application in PLC systems ensures a high level of safety.
