

CECC-D

Industrial automation components

Manufacturer	Festo
Catalog number	cecc-d
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage	24 V
Current	4.3 A
Frequency	400 MHZ
Product Type	Controller
Signal Type	24
Signal Level	24 V

Description

The CECC-D is an advanced controller operating at a voltage of 24V and a current of 4.3A. It features a working frequency of 400Hz, making it an ideal solution for applications requiring precise control. Both the signal type and signal level are 24, ensuring high compatibility with other devices in the system.
