Ask about this product

Manufacturer	Festo
Catalog number	emms-as-55-s-tm
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Operating Voltage	360.0 VDC
Continuous Current	0.83 A
Continuous Torque	3.0 in-lbs
Electrical Connection	Terminal Box
Winding Variants	Various

Description

The Festo EMMS-AS-55-S-TM is a brushless, permanently excited synchronous servo motor designed for precise motion control applications. This model features a digital absolute linear potentiometer, available in both single-turn and multi-turn configurations, ensuring accurate position feedback. The motor operates at a DC voltage range of 360.0 VDC and delivers a continuous current of 0.83 amps, providing a continuous torque of 3.0 in-lbs (approximately 3.47 kg-cm). It is equipped with a terminal box for electrical connection and offers various winding variants to suit different application requirements. The EMMS-AS-55-S-TM is part of Festo's EMMS-AS series, known for their reliability and performance in industrial automation systems.
