Manufacturer	Finder
Catalog number	9002
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Relay Socket
Series	90
Mounting Type	Panel, DIN Rail
Number of Pins	8
Current Rating	10 A
Voltage Rating	250 V

Description

The Finder 90.02 is a high-quality relay socket designed for seamless integration with Finder's 60.12 series relays. This socket offers a reliable and efficient solution for various industrial automation applications.

It features a robust construction with box clamp terminals, ensuring secure and stable connections. The socket is suitable for both panel and DIN rail mounting, providing flexibility in installation.

With a nominal current rating of 10 A and a voltage rating of 250 V, it meets the demands of standard industrial environments. The dielectric strength of 2 kV AC ensures reliable operation under typical conditions.

Operating within a temperature range of -40°C to +70°C, the 90.02 socket is built to withstand diverse environmental conditions. Its IP20 protection rating offers adequate safety against accidental contact with live parts.

This socket is an ideal choice for professionals seeking a dependable and versatile solution for their relay mounting needs.
