

IC200ALG260

Industrial automation components

Manufacturer	Ge Fanuc
Catalog number	ic200alg260
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.25 kgs kg
---------------	-------------

Description

The IC200ALG260 is an analog module from GE FANUC, designed for use in industrial automation systems. Weighing 0.25 kg, it is lightweight and easy to install. This module enables precise measurements of analog signals, which is crucial for monitoring and controlling industrial processes. Its reliability and performance make it an ideal solution for complex automation applications.
