

IC660EBA100

Industrial automation components

| | |
|-----------------------|----------------------------------|
| Manufacturer | Ge Fanuc |
| Catalog number | ic660eba100 |
| Category | Industrial automation components |
| Product type | Industrial automation components |
| Status | Active product |

Technical specification

| | |
|-----------------------------|---------|
| Signal Type | 115 |
| Signal Level | 115 V |
| Relay Specifications | 115 VAC |

Description

The IC660EBA100 is a signal module that offers a signal type, signal level, and relay specification, all at 115. With these parameters, this module is suitable for applications requiring stability and accuracy in signal transmission. Its design ensures long-lasting performance in various operational conditions.
