

IC670ALG320

Industrial automation components

Manufacturer	Ge Fanuc
Catalog number	ic670alg320
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Module
Signal Type	source

Description

The IC670ALG320 module is a high-quality device that functions as a signal source. It provides reliable operation in various industrial automation applications, offering flexibility and efficiency in signal management.
