

IC693ALG390

Industrial automation components

Manufacturer	Ge Fanuc
Catalog number	ic693alg390
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.34 kgs kg
---------------	-------------

Description

The IC693ALG390 is an analog module from GE FANUC, designed for use in industrial automation applications. Weighing 0.34 kg, it is lightweight and easy to install. This module enables precise measurements of analog signals, which is crucial in many industrial processes. With its reliability and efficiency, the IC693ALG390 is an ideal solution for control and monitoring systems.
