

IC693CPU374-GP

Industrial automation components

Manufacturer	Ge Fanuc
Catalog number	ic693cpu374-gp
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Interface Type	ethernet
Product Type	Module
Manufacturer	Fanuc

Description

The IC693CPU374-GP module from GE FANUC is an advanced solution that utilizes an ethernet interface for communication. This product, created by the renowned manufacturer Fanuc, is a key component in industrial automation systems, providing reliable data processing and integration with other components. Its design allows for easy integration into existing systems, making it an ideal choice for various industrial applications.
