

## IC697PWR710

Industrial automation components

|                       |                                  |
|-----------------------|----------------------------------|
| <b>Manufacturer</b>   | Ge Fanuc                         |
| <b>Catalog number</b> | ic697pwr710                      |
| <b>Category</b>       | Industrial automation components |
| <b>Product type</b>   | Industrial automation components |
| <b>Status</b>         | Active product                   |

### Technical specification

|                             |         |
|-----------------------------|---------|
| <b>Voltage</b>              | 125 V   |
| <b>Signal Type</b>          | 240     |
| <b>Signal Level</b>         | 240 V   |
| <b>Relay Specifications</b> | 240 VAC |

### Description

The IC697PWR710 power supply from GE FANUC is designed for use in automation systems. It provides a voltage of 125V with a signal type and signal level of 240. The relay specification also stands at 240, ensuring stable power for connected components.
