

## FC4A-N16B3

Industrial automation components

<b>Manufacturer</b>	Idec
<b>Catalog number</b>	fc4a-n16b3
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Weight</b>	0.05 kgs
<b>Input Points</b>	16 points
<b>Input Voltage</b>	24 V DC
<b>Connector Type</b>	MIL connector
<b>Product Type</b>	Digital Input Module
<b>Operating Temperature</b>	-25 to 65 °C

### Description

The Idec FC4A-N16B3 is a 16-point digital input module designed for the MicroSmart PLC series. Operating at 24V DC, it features a MIL connector for secure and reliable connections. This module is ideal for applications requiring multiple digital inputs, such as industrial automation systems, where precise and efficient control is essential. Its robust design ensures durability and consistent performance in demanding environments.
