

DAG01.2

Industrial automation components

Manufacturer	Indramat
Catalog number	dag012
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Indramat
Part Number	DAG01.2
Product Type	Encoder Interface Module
Dimensions	14 mm x 18 mm x 3 mm
Weight	0.16 kg

Description

The Indramat DAG01.2 is an encoder interface module designed for seamless integration into industrial automation systems. Manufactured by Indramat, this module facilitates precise data transmission between encoders and control systems, ensuring accurate motion control and system synchronization. Its compact design, measuring 14 mm in height, 18 mm in length, and 3 mm in width, allows for efficient use of space within control panels. Weighing approximately 0.16 kg, the DAG01.2 is suitable for applications where space and weight considerations are critical. This module is compatible with various Indramat drive systems, providing reliable performance in demanding industrial environments. Its robust construction and high-quality components ensure longevity and consistent operation, making it a valuable component for maintaining the efficiency and reliability of automation systems.
