Ask about this product

Manufacturer	Indramat
Catalog number	dds021-f200-da07-00
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Control Voltage	24V
Nominal DC Bus Voltage	300V
Cooling System	Liquid Cooling
Motor Compatibility	MDD, MKD, LAR AC motors
Firmware	Ordered Separately

Description

The Indramat DDS02.1-F200-DA07-00 is a high-performance drive controller engineered for seamless integration with various Rexroth motor series, including MDD, MKD, and LAR AC motors. Designed for industrial automation applications, this controller offers precise motion control and robust performance. Key features include a 24V control voltage, a nominal DC bus voltage of approximately 300V, and a liquid cooling system that facilitates efficient heat dissipation, allowing for installation in compact control cabinets. The modular design of the DDS02.1-F200-DA07-00 enables customization to meet specific application requirements, with firmware and software modules ordered separately to tailor the controller's functionality. This drive controller is ideal for applications requiring reliable and efficient motion control solutions.
