

DEA4.1

Industrial automation components

Manufacturer	Indramat
Catalog number	dea41
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.30 kgs
Weight	0.30 kg
Mounting Type	Panel mount
Connector Type	37-pin D-Subminiature
Input Channels	15
Output Channels	16

Description

The Indramat DEA4.1 is a specialized input/output interface board designed for integration with Indramat's AC axis controllers, facilitating seamless communication between the controller and connected devices. This module is integral to the operation of Indramat's servo systems, ensuring efficient data exchange and control signal transmission. Its robust construction and precise engineering make it a reliable component for industrial automation applications requiring high-performance servo control. The DEA4.1 is compatible with various Indramat AC axis controllers, enhancing their functionality and adaptability in diverse automation environments.
