

## DEA5.1

Industrial automation components

<b>Manufacturer</b>	Indramat
<b>Catalog number</b>	dea51
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Weight</b>	0.05 kgs
<b>Product Type</b>	Digital Intelligent AC Servo Drive Module
<b>Interface Type</b>	37-point Interface
<b>Dimensions</b>	16.5 x 31.5 x 5 cm
<b>Weight</b>	0.11 kg
<b>Product Phase</b>	Obsolete

### Description

The Indramat DEA5.1 is a digital intelligent AC servo drive module designed for precise motion control in industrial automation systems. As part of the DIAX 2 series, it offers advanced features for efficient and reliable operation. This module serves as an interface card, providing input/output capabilities through a plug-in design with a 37-point interface, facilitating seamless integration into various automation setups. Its compact dimensions and lightweight design ensure easy installation and minimal space usage within control panels. The DEA5.1 is engineered to deliver high performance and durability, making it suitable for applications requiring precise and responsive motion control. For comprehensive technical details and operational guidelines, refer to the official Indramat manual.
