

DKC10.3-008-3-MGP-01VRS

Industrial automation components

Manufacturer	Indramat
Catalog number	dkc103-008-3-mgp-01vrs
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.19 kgs
Voltage	300 V
Current	8 A
Product Type	Drive
Signal Type	300
Signal Level	300 V
Relay Specifications	8 A

Description

The Indramat DKC10.3-008-3-MGP-01VRS is a high-performance drive controller designed for precise motion control in industrial automation systems. Manufactured by Indramat, a leader in motion control technology, this model is part of the DKC series and operates with a DC-bus nominal voltage of 300 V and a rated current of 8 A. It features multi-interface, general-purpose firmware (version 01), ensuring compatibility with various automation systems. The controller is suitable for both single and multi-axis motor applications, making it versatile for diverse industrial tasks. Its robust design and advanced features make it ideal for demanding environments requiring reliable and efficient motion control solutions.
