

DRF1.1

Industrial automation components

Manufacturer	Indramat
Catalog number	drf11
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.06 kgs
Product Type	Module
Industrial Safety	plc
Safety Level	plc
Dimensions	0.8 in x 5.3 in x 6.4 in inches
Weight	0.2 kg
Manufacturer	Indramat
Part Number	DRF1.1
Category	Podzespoły automatyki przemysłowej

Description

The Indramat DRF1.1 Interface Module is a specialized component designed to facilitate seamless communication between automation systems and external devices. Manufactured by Indramat, a renowned leader in industrial automation, this module ensures reliable data exchange and control within automated environments. Key features include its compact design, robust construction, and compatibility with various Indramat drive systems. The DRF1.1 operates efficiently under a wide range of industrial conditions, making it suitable for applications requiring precise and dependable performance. Its integration capabilities allow for straightforward incorporation into existing automation setups, enhancing system functionality and operational efficiency. Whether used in new installations or as a replacement in existing systems, the DRF1.1 Interface Module offers a dependable solution for industrial automation needs.
