

DSS2.1

Industrial automation components

Manufacturer	Indramat
Catalog number	dss21
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.10 kgs
Product Type	Interface Module
Dimensions	150 mm x 180 mm x 20 mm
Weight	0.20 kg
Interface	SERCOS
Product Type	Interface Module

Description

The Indramat DSS2.1 is an interface module designed for seamless integration within industrial automation systems. Manufactured by Indramat, a leader in automation technology, this module facilitates efficient communication and control between various automation components. Its compact design ensures easy installation in diverse industrial environments. The DSS2.1 is engineered to meet the rigorous demands of industrial applications, offering reliable performance and durability. Its robust construction and advanced features make it a valuable component for enhancing automation processes.
