

DZF2.1

Industrial automation components

Manufacturer	Indramat
Catalog number	dzf21
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.15 kgs
Weight	0.15 kg
Dimensions	17.00 × 15.00 × 2.00 cm
Category	Industrial Automation Components
Manufacturer	Indramat
Part Number	DZF2.1
Category	Podzespoły automatyki przemysłowej

Description

The Indramat DZF2.1 is an interface module designed for integration with Indramat's DDS series digital intelligent AC servo drives. This module facilitates the connection of external encoders, enabling precise motor control and feedback within automation systems. Its primary function is to serve as a bridge between the servo drive and external devices, ensuring accurate data transmission and system synchronization. The DZF2.1 is compatible with various Indramat servo drives, enhancing their versatility and adaptability in diverse industrial applications. Its robust design and reliable performance make it a valuable component for systems requiring high-precision motion control and feedback integration.
