

## FWA-ECODR3-SMT-02VRS-MS

Industrial automation components

<b>Manufacturer</b>	Indramat
<b>Catalog number</b>	fwa-ecodr3-smt-02vrs-ms
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Application Area</b>	Machine Tooling
<b>Communication Interfaces</b>	SERCOS, Analog, Parallel
<b>Display</b>	2-Digit Numeric
<b>Dimensions</b>	2.5 x 3.0 x 1.0 inches
<b>Weight</b>	1.3 ounces oz
<b>Software Version</b>	2

### Description

The Indramat FWA-ECODR3-SMT-02VRS-MS is a firmware module designed for the ECODRIVE03 series servo drive controllers, specifically tailored for machine tooling applications. This firmware integrates seamlessly with the ECODRIVE03 controllers, providing enhanced motion control capabilities essential for precision machinery operations. It supports multiple communication interfaces, including SERCOS, analog, and parallel, ensuring versatile connectivity within industrial automation systems. The firmware operates with a 2-digit numeric display, facilitating straightforward status monitoring and diagnostics. Its compact dimensions of 2.5 x 3.0 x 1.0 inches and lightweight design at 1.3 ounces make it suitable for integration into space-constrained environments. The multilingual support feature ensures adaptability across diverse operational settings, accommodating various language requirements. With a factory-assigned rated current and software version 2, the FWA-ECODR3-SMT-02VRS-MS firmware module delivers reliable and efficient performance, meeting the rigorous demands of industrial automation applications.
