

HDS04.1-W200-N

Industrial automation components

Manufacturer	Indramat
Catalog number	hds041-w200-n
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	HDS Drive Controller
Controller Family	DIAX04
Rated Current	200 A
Cooling Method	Built-in Internal Air Blower
Command Communication Interface	Analog

Description

The Indramat HDS04.1-W200N is a high-performance HDS Drive Controller from the DIAX04 series, designed for precise control in industrial automation applications. This controller delivers a rated current of 200 A and features a built-in internal air blower for efficient cooling. It operates with an analog command communication interface, ensuring seamless integration into existing systems. The HDS04.1-W200N is engineered for reliability and durability, making it suitable for demanding environments where consistent performance is essential. Its robust design and advanced features make it a valuable component for enhancing automation processes.
