

HZB2.2-W002-N

Industrial automation components

Manufacturer	Indramat
Catalog number	hzb22-w002-n
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Indramat
Part Number	HZB2.2-W002-N
Product Type	Servo Drive Module
Nominal Power Output	2 kW
Cooling System	Integrated Air Cooling with Built-in Blower

Description

The Indramat HZB2.2-W002-N is a high-performance servo drive module designed for precise control in industrial automation applications. Manufactured by Indramat, a renowned leader in motion control technology, this module offers exceptional reliability and efficiency. Key features include a nominal power output of 2 kW, ensuring robust performance in demanding environments. The integrated air cooling system, featuring a built-in blower, maintains optimal operating temperatures, enhancing the module's longevity and stability. This servo drive is ideal for applications requiring precise speed, position, and torque control, such as robotics, CNC machinery, and automated production lines. Its compact design facilitates seamless integration into existing systems, making it a valuable component for enhancing automation capabilities.
