

KDV2.3-100-220/300-000

Industrial automation components

Manufacturer	Indramat
Catalog number	kdv23-100-220300-000
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	15.27 kgs
Voltage	220 V
Current	100 A
Refrigerant	r911248171
Signal Type	220
Signal Level	220 V

Description

The Indramat KDV2.3-100-220/300-000 is a robust power supply module designed to provide reliable DC power for Indramat drive systems, including controls and servo motors. This module features a rated current of 100A and operates with a nominal input voltage of 220V AC, converting it to a 300V DC bus. It is engineered to supply up to 24 kW of mechanical power, ensuring efficient performance in demanding industrial applications. The KDV2.3-100-220/300-000 is compatible with various Indramat drive systems, offering seamless integration and reliable operation. Its design emphasizes durability and efficiency, making it a critical component for maintaining optimal performance in automated production lines and motion control systems.
