| <b>Status</b>         | Active product                   |

### Technical specification

|                                 |         |
|---------------------------------|---------|
| <b>Measurement Range</b>        | 4 - 144 |
| <b>Signal Type</b>              | 480     |
| <b>Component Specifications</b> | acs850  |
| <b>Horsepower</b>               | 100 HP  |
| <b>Product Type</b>             | Drive   |
| <b>Signal Level</b>             | 480 V   |
| <b>Relay Specifications</b>     | 144 A   |

### Description

The ACS850 is an advanced industrial drive capable of handling motor power up to 100 kW. Its measurement range spans from 4 to 144, making it a versatile solution for various applications. This drive operates at a signal level of 480, ensuring stability and reliability in operation. The relay specification is 144, further enhancing its functionality. Ideal for applications requiring precise control.
