

YB560103-CB

Industrial automation components

Manufacturer	Inny
Catalog number	yb560103-cb
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	1.15 kgs kg
Manufacturer	ABB
Part Number	YB560103-CB
Product Type	Robotic Driver Stage
Product Family	DSQC 236B
Dimensions	10.0 x 2.0 x 10.0 inches
Model	DSQC 236B

Description

The ABB YB560103-CB, also known as the DSQC 236B, is a robotic driver stage designed for ABB robotic systems. This drive unit is integral to controlling the movement and operation of robotic arms, ensuring precise and reliable performance in industrial automation applications. Manufactured by ABB, a leader in industrial automation, the YB560103-CB is engineered for durability and efficiency, making it suitable for various robotic applications requiring high-performance drive control. Its robust design and advanced features contribute to the seamless integration and operation of ABB robotic systems in demanding industrial environments.
