

TV6-60-12

Industrial automation components

Manufacturer	Inny/Other/Andere
Catalog number	tv6-60-12
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Unitek
Part Number	TV6-60-12S
Product Type	Drive Unit
Application Area	Industrial Automation
Output Voltage	12V

Description

The Unitek TV6-60-12S is a high-performance drive unit designed for industrial automation applications. Manufactured by Unitek, this model offers reliable and efficient operation, making it suitable for various automation tasks. Key features include a robust design for durability, compatibility with standard industrial control systems, and a compact form factor for easy integration into existing setups. The TV6-60-12S is ideal for applications requiring precise control and consistent performance in demanding environments.
