

DL-EP1

Industrial automation components

Manufacturer	Keyence
Catalog number	dl-ep1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Module
Signal Level	30 V
Voltage	20 - 30 V
Power	1500 MW
Signal Type	30

Description

The DL-EP1 module from KEYENCE is designed to operate within a voltage range of 20 to 30 V. It delivers a power output of 1500 W and features a signal level of 30, making it an ideal solution for applications requiring precise control. Its signal type is 30, ensuring high performance and reliability in demanding industrial environments.
