

LK-HA100

Industrial automation components

Manufacturer	Keyence
Catalog number	lk-ha100
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage	10 V
Component Specifications	ha100
Product Type	Sensor
Signal Level	10 V

Description

The LK-HA100 sensor from KEYENCE is an advanced device designed for precise measurement. It operates at a voltage of 10V, ensuring stability and reliability in various industrial applications. The HA100 component specification and a signal level of 10 guarantee high quality and measurement accuracy, making it an ideal solution for demanding production environments.
